General Faculties Council

General Faculties Council convened on 23 June 1980 and dealt with several items of business including the following:

Canadian Union College Degree-Granting Status
Council supported the (earlier) unanimous recommendation from the GFC Committee on Admissions and Transfer that the proposal of Canadian Union College (CUC) to offer the three

programs—BSc (General) in Biology, BEd Elementary, and BEd Secondary—leading to University of Alberta degrees is premature. It was noted that six members of the faculty visited CUC last February and came away with the feeling that the number of CUC academic staff in any one area, and in some cases their post-graduate preparation, were limiting factors. The library holdings, the team indicated, were

adequate to good in some sub-specialties and marginal in others. As well, laboratory facilities and equipment, both for biology and supporting courses were thought to be inadequate for senior courses.

On the other side of the investigative coin, the team cited the enthusiasm of CUC's administration and staff and the pervading philosophy of developing a work ethic and educating

the whole person. The members were in agreement that there ought to be room in Alberta for several different kinds of post-secondary systems, and that CUC should be encouraged to develop academically sound programs in its own style, without trying to emulate The University of Alberta.

The Universities Act: Proposed Amendments to Incorporate the Chairmen's Council, Department Chairmen and Departments Council battled .500 on this matter by endorsing the proposed changes to Section 23 (Department Chairmen) of the Act and referring back to the originating bodies Section 35 on the Chairmen's Council. The section, as amended by GFC, says that, upon the recommendation of GFC, the Board of Governors may establish a Council of Department Chairmen which shall consist of (a) the President who shall be chairman, (b) the Department Chairman of each Department, and (c) such other officers of the University as may be designated by the Council of Department Chairmen. The section also noted that the Council of Department Chairmen shall elect its own officers for such term as it may choose and that the Council is an advisory body to the President, the Board, and GFC and has such powers, duties and functions as may be designated to it.

A report on Section 35 will be given at the December 1980 meeting of Council.

New Campus Map In Demand

During the first week in June, 10,000 copies of a new Campus Map and Visitors' Guide rolled off the presses at Printing Services. Two weeks later the Community Relations Office had received requests for all those and more, and an order was in for an additional 5,000 copies.

"We were certainly surprised at how fast they went," says Rick Pilger, who co-ordinated the map's production for the Office of Community Relations.

"Because the map is so different from what we have had in recent years, we deliberately ordered a limited number printed, planning a revision once the bugs were out. But we expected them to last a few months, not a few weeks."

One of the most significant changes in the campus map this year is its combination with a visitors' guide which outlines areas of campus of potential

interest to visitors and provides statistical information to answer some of the most frequently asked questions about the University.

The other most significant change is a return to a profile map with actual sketches of the buildings, such as was used in the early 1970s.

"While the 'flat' maps used in recent years did have some real advantages, chiefly in the amount of information which they could contain, people seemed to relate better to the profile map—you still see the old map used in a variety of ways and places throughout campus," says Mr. Pilger, explaining the rebirth of the map featuring building sketches.

Although he admits that the large number of orders already made would seem to indicate that the new campus map and visitors' guide is finding favor on

campus, Mr. Pilger prefers to remain cautious: "Likely there was quite a demand for a campus map of any sort; however, we have just recently completed the distribution of a few copies to each University department and that should tell us how the new map and guide is being accepted and of any problems."

Already some improvements are planned for the revised Campus Map and Visitors' Guide to be printed in the fall and, where necessary, information will be brought up to date. Other improvements may result from the feedback once the map is put into use.

In the meantime, the original printing plates are being used to produce the 5,000 reprints needed for immediate use. The reprints, however, will not be identical to the original as the fold and paper are being experimented with. □

New Members

The following people were appointed to serve on GFC: Sharon Empey, academic staff, University Libraries; Professor V.G. Gourishankar, the new President of the Association of Academic Staff; Mary Ann Gillies, undergraduate student representative on the Board of Governors; Ross Hastings, a graduate student; and Riyadh Adim C. Karmy-Jones and Animesh Amart Sinha, both undergraduate

students.

Council also received the names of the following staff members who have been elected by their Faculties for GFC terms of office: Professors R.R. Faryon, Extension; R.G. Glassford (re-elected), Physical Education and Recreation; M.E. Steed, Nursing; D.G. Fisher, Chemical Engineering; S. Kling, Surgery and Clinical Surgery; and J.B. Dossetor, Medicine and Clinical Medicine.

Department of Applied Statistics and Probability

As the result of a positive vote, GFC will recommend to the Board of Governors that a Department of Statistics and Applied Probability be established as an entity distinct from the Department of Mathematics. The Department would serve as a vehicle to facilitate

communication and exchange of information concerning statistical activity and instruction on a campus-wide basis. In collaboration with interested departments and individuals, it would seek to coordinate the quality of content and instruction in statistics and probability throughout the University and to make more efficient use of resources. □

1980 Music Competition Finals

The Edmonton Symphony Society

The 1980 national finals of the Canadian Music Competitions are being held in Edmonton at the University of Alberta from 29 June through 6 July 1980.

W. Richard Palmer, National President of CMC said, "The competitions which will be held at Convocation Hall, University of Alberta, are being held in Edmonton as a result of a grant from Alberta Culture, Government of Alberta." CMC is a nation-wide, nonprofit organization which encourages young Canadians having significant talent and substantial promise. This encouragement is provided by giving outstanding young

musicians, selected through a rigorous national competition, the opportunity to perform before audiences usually beyond the reach of non-professionals and by providing cash scholarships to permit further studies.

Some CMC winners of former competitions have gone on to become both national and international artists: Boris Brott, Louis Lortie, John Hendrickson, Janina Fialkowska, Andre Laplante, Angela Cheng, Gwen Hoebig, Clarice Carson and many more.

Chairman of the National Finals Committee is Mr. Arthur Bray. □

Government of Alberta

Five Alberta university students with working knowledge of the French language have been chosen to participate in an innovative interprovincial program. The Alberta government in cooperation with the government of Quebec is carrying out a Quebec-Alberta Student Employment Exchange program according to Jim Horsman, minister of Alberta Advanced Education and Manpower.

"Students selected for exchange left by air for Quebec City on 31 May to be employed in the departments of the government of Quebec in jobs beneficial to their field of study," said Mr. Horsman. "Five Quebec students arrived on 5 June to work in

similar positions in Alberta."

The students, all from the University of Alberta and resident in Edmonton have already started working at their summer jobs. Marie Szazkiewicz and Lynn Demers are tour guides in the Palace Royale; Nicole Boutin is a clerical worker in the department of Social Affairs; John Dosseter and Helene Lefevre are both involved in communications, John in the distribution warehouse and Helene in a government library in a shopping mall.

The government of Alberta paid their transportation costs and gave the students a small grant to help them get settled in residence at Laval University. The province of Quebec will provide salaries of \$789 a month.

The Quebec-Alberta Student Employment Exchange program offers a unique summer work experience for these university students. □

Employment Opportunities

Government of Alberta

More employment opportunities are now available for Alberta youth in the Zone Offices of the Travel Industry Association of Alberta (TIAALTA) according to Jim Horsman, minister of Alberta Advanced Education and Manpower.

"A total of \$5.4 million has been allocated for the Summer Temporary Employment Program (STEP)," Mr. Horsman said. "Because of high demand, \$50,000 more than we originally estimated has been allotted to the Tourism Work Experience element."

This element of STEP provides employment for Alberta youth on

projects related directly to tourism development, consultation and operation. Students must be sixteen years of age or older, prior to starting work. Hiring will be done through the participating TIAALTA Zone Offices. These particular jobs are aimed at post-secondary students and may operate from now until September.

Wage rates are determined between the Zone Offices and the students. Under a cost-sharing arrangement the provincial government through Alberta Advanced Education and Manpower will reimburse the participating Zone Office up to a maximum of \$2.25 an hour or

one-half of the wages for each student hired.

Mr. Horsman urged students interested in this or other STEP jobs to register at their nearest Hire-A-Student office. "I am convinced that the process of seeking employment is an integral part of the maturing process. We want to ensure these young Albertans have a wide variety of interesting and challenging positions to apply for, and to work at during their summer break. All the elements of the Summer Temporary Employment

Program are designed to match the talent and skills of our young people with the needs of our own province." □

people

Saleem Qureshi, Professor of Political Science, presented three papers dealing with (1) Social Revolution in South Asia; (2) Politics of the Afghan Coups; and (3) Pakistan and the Muslim World at the annual meetings of the Canadian Asian Association. Professor Qureshi also organized a panel on Afghanistan in which papers were also presented by Professor Ken Taylor, Department of History, and Professor J. Hanifi, Department of Anthropology, University of Northern Illinois. In addition, Professor Qureshi chaired two panels at these meetings.

Jean Bourgois, MSc candidate with the Department of Food Science, won the graduate student paper competition at the 1980 Canadian Institute of Food Science and Technology Conference held in Toronto, 1-4 June 1980. The paper by Jean Bourgois and M. LeMaguer was titled "Heat Transfer in a Climbing Film Evaporator." With this award to Mr. Bourgois, graduate students from this University have won the National Paper Competition five years in succession.

During the last meeting of the Learned Societies in Montreal, *J.M. Duclaux* was elected President of the Association for Canadian and Quebec Literatures, and R. Motut was elected Secretary-Treasurer; both from the Department of Romance Languages. The Vice-Presidents are Suzanne Jackel and Stephen Scobie, both from the Department

of English.

The Regional representatives to ACQL are (Atlantic Province) Yves Bolduc, Université de Montréal; Laurent Mailhot, Université de Montréal; Patricia Morley, Concordia University; (Ontario) John Lennox, York University; Patricia Smart, Carleton University; and (BC) Sandra Jwa, Simon Fraser University.

Gabor Simonyi, Head Track and Field Coach and Physical Education instructor at the University of Alberta, will be the main lecturer at a "Learn by Doing" Coaches Clinic to be held at the University of New Mexico in Albuquerque, 24 to 27 June 1980. The clinic is provided for high school and club coaches in the southern United States.

Highly regarded in international track and field circles, Simonyi is currently the Canadian National pole vaulting and triple jump coach.

Brian Watson, Golden Bear Volleyball Coach at the University of Alberta, is currently sharing his expertise on an international tour of South Africa, from 12 to 30 June 1980. Mr. Watson will be working to update the methods of training and skill acquisition in four main centres: Johannesburg, Cape Town, Port Elizabeth and Durban. Mr. Watson will conduct coaches and player clinics in the various centres. In addition, he will spend time assisting the South African National team during his tour.

Mr. Watson will be the interim coach for the 1980-81 season, replacing Hugh Hoyles who takes a one year leave of absence.

John King-Farlow, Professor of Philosophy, contributed a paper on Charles Babbage to recent meetings in Montreal of the Canadian Society for History and Philosophy of Science. He also was an invited symposiast on Philosophy of Religion at King's College, Edmonton.

Leonard I. Wiebe, Faculty of Pharmacy and Pharmaceutical Sciences, attended the European Society of Nuclear Medicine Congress in Barcelona, Spain, 20 to 23 May. Professor Wiebe

delivered two research papers, "Studies on the Use of Samarium-153 Radiopharmaceuticals in Oncological Diagnosis" (J. Tse, A. Noujaim and L. Wiebe), and "The Synthesis of 6-Radiohalogenopyrimidines for Evaluation as Radiopharmaceuticals in Diagnostic Oncology" (L. Wiebe, Y. Lee, E. Knaus and D. Abrams, University of Alberta, and F. Helus and W. Maier-Borst, German Cancer Research Centre, Heidelberg).

Douglas J. Martin, a PhD student in the Department of Computing Science, was invited by Alberta Recreation and Parks, and Environment of Canada, to attend a plaque-unveiling ceremony for the dedication of Dinosaur Provincial Park as a UNESCO World Heritage Site. The dedication took place on 19 June.

Mr. Martin was invited to represent his grandfather, Charles M. Sternberg of Ottawa. Mr. Sternberg was the first paleontologist to collect dinosaur fossils in the Drumheller area circa 1917, and had a great deal to do with establishing Dinosaur Provincial Park. Mr. Sternberg maintains a healthy active life in Ottawa.

Lubomyr Luciuk, PhD candidate in the Department of Geography, recently attended a conference at the University of Toronto, "The State of the Art: A Conference on Ethnic and Immigration Studies in North America." Mr. Luciuk, who is

carrying out studies on the impact of Ukrainian refugees in Canada during the immediate post-World War II period, recently published a paper entitled "Internal Security and an Ethnic Minority: The Ukrainians and Internment Operations in Canada, 1914-1920" in *Signum*, the journal of the Royal Military College, Kingston, Ontario.
